## About Me

As a technology enthusiast and computer science student, I am passionate about entrepreneurship. I have followed startup growth, led hackathons, and worked on innovative tech projects. My goal is to join the MSc X-HEC Entrepreneurs program to pursue impactful projects and realize creative solutions.

## Skills

- Management Skills
- Fast Learner
- Developpement
- Sociable
- Critical Thinking
- Leadership

## Education

- **Master of Science, Computer Science**  
*Epitech Technology, Paris* 2022-2027  
Epitech is a leading French school of innovation and expertise in computer science, recognized for its project-based learning approach. It fosters strong technical skills, entrepreneurship, and adaptability through real-world projects and multiple internships.
- **Master of Science, Artificial Intelligence**  
*Heriot-Watt University, Edinburgh* 2025-2026  
The MSc in Artificial Intelligence at Heriot-Watt University is an advanced program focused on the core principles and cutting-edge techniques of AI. The course covers areas such as machine learning, natural language processing, computer vision, and data analytics. Students gain hands-on experience in designing and implementing AI systems.

## Experience

- **Software Engineer**  
*Smode Tech* 2024-2025
  - Intern at Smode Tech, responsible for integrating a solution using Nvidia's NVAPI to enforce specific graphic parameters.
  - Automate the configuration of Nvidia graphic settings on dedicated machines.
  - Leverage Nvidia API to access and control graphical properties.
- **VC Scout**  
*THE QUEST* 2024-Now
  - VC Scout at THE QUEST, actively identifying and engaging with promising startups and founders.
  - Attend entrepreneurial events to discover high-potential ventures.
  - Build and maintain relationships with innovative teams and founders.
  - Provide detailed recommendations to the investment team for potential investments.
  - Support the growth and development of startups through strategic insights.
- **Vice-President**  
*Gotta-Go-Hack* 2023-2024
  - Vice-President of GottaGoHack, the entrepreneurial association of Epitech and Epita.
  - Ensure smooth operations of the association and its events.
  - Oversee a center dedicated to entrepreneurial talks and discussions.
  - Organize biannual hackathons to promote student entrepreneurship.
  - Largest event to date had over 100 participants and more than €10,000 in cash prizes.
  - Secured renowned sponsors such as Société Générale and SLB to support hackathons.
- **Ethereum Prague Hackathon**  
*Ethereum Foundation* 07/2022
  - Participated in EthPrague Hackathon, creating the "Fair Grants" open data pipeline project.
  - "Fair Grants" mitigates fraud in permissionless quadratic funding for public goods.
  - Designed and implemented a solution to enhance transparency and fairness in public funding processes.
  - Developed data-driven methods to detect and prevent fraudulent activities in funding.
