## PROFILE

Aspiring Product Manager driven by a passion for innovation and a commitment to crafting user-centered solutions. With a solid foundation in project management and software development, I thrive on collaboration across diverse teams to transform ideas into impact products. My experience in advising teams empowers them to build solutions that not only meet user needs but also align with market expectations and industry trends. I believe that the best products are born from understanding the voice of the user and embracing community feedback.

## EMPLOYMENT HISTORY

Feb 2023 — Dec 2023
